

HIGH-TECH SOLUTIONS AND COMPETENCE
FOR FINNISH SCIENTIFIC RESEARCH

UNIQUE EMPLOYMENT
OPPORTUNITIES WITH CSC,
THE FINNISH IT CENTER
FOR SCIENCE

CSC

CSC is the only supercomputer center in Finland, northern Europe and a center of expertise in computational research.

We are also responsible for the operational management of Funet, the Finnish research and education network. Our mission is to develop and provide services in information technology as part of the Finnish research system. We are also at the forefront in several international EU funded projects.

Join our energetic team to become a professional in a modern and relaxed working environment with friendly co-workers. The powerful supercomputing environment and Funet network offers a unique framework for developing scientific IT technology and IT system services.
