

Applicant contact information (see instructions on page 2)

New application

Change of user information

Name:	User account opened (filled by CSC):
Nationality:	Uid:
Position:	Gid:
Institution:	Acid:
Department or laboratory:	Directory:
Street address or P.O. Box:	
Postal code and city:	
Telephone:	
E-mail address:	
Subscription to CSC's free customer magazine: <input type="checkbox"/> In English (CSCnews) <input type="checkbox"/> In Finnish (Tieteen tietotekniikka)	

Purpose of use

General information of the use:
Supervisor's name, email address and university or polytechnic (required for students):
Account is valid until (by default two years at the time starting from the day of admission):
Field of science (see list on page 2):
The user accounts are entitled to default CSC quota (1000 billing units) and default disk quota (1 gigabyte)

APPLICATION FOR THE FOLLOWING SERVICES : (* for consortium members only)			
Scientist's interface <input type="checkbox"/>	Chipster <input type="checkbox"/>	CrossFire * <input type="checkbox"/>	
PERCH <input type="checkbox"/>	Other, which <input type="checkbox"/>		

Signatures

The user account obtained may be used for the above mentioned purpose only. I commit myself to obey CSC's regulations mentioned on page 2.
Place, date and signature:

Filled by CSC

Date of arrival	Date of registration	Date of mailing	
Registration number			
User quota	billing units	Disk quota	Expiration date
University	Invoicing address		
Remarks			

Instructions and further information:

GENERAL CONDITIONS FOR USER ACCOUNTS AND DATA SECURITY:

The use of the system involves license conditions by system manufacturers and US authorities. Every user shall meet these conditions:

1. Each user account is personal. User shall not pass the password on to a third party.
2. If there is a reason to doubt that unauthorized people have used or tried to use the resources, CSC should be notified immediately. Storing delicate or confidential information or sending it over the network should be negotiated in advance with CSC.
3. The resources obtained should be used for the proposed task only.
4. Due to licence conditions, foreign user accounts and the use of the resources from abroad should be negotiated separately.
5. The user id should be secured by a password that is difficult to anticipate.
6. Some software can be used by academic users only. Other users should settle the matter with software contact persons.
7. Data in user's CSC home directory is stored for a maximum time of two years after the user account has expired. CSC takes back-up copies of the customers' files regularly. However, CSC declines any responsibility for files lost due to system failure.
8. Changes in contact information should be sent immediately by e-mail to usermgr@csc.fi.

INSTRUCTIONS FOR FILLING OUT THE FORM: This application form is for applying a new user account or changing the user information. Your starting quota for computations is 1000 billing units per project and 1 GB of home disk quota. The user account for or general usage entitles to use text editor, www and news services as well as home directory and archiving services. Extensive computational usage is not possible with the user account, but the default quota is in most cases sufficient for general usage. Your user account is opened at CSC's Hippu server by default.

If the applicant is a master's level or doctoral student registered at a university or polytechnic, supervisor's name, email address and institution must be mentioned.

General user rights are granted for academic research only and the project results are public information. If the project results are confidential, then a commercial contract should be drawn for computations (<http://www.csc.fi/english/customers/companies>). CSC has the right to use project's general information - such as project name, contact person's name, and projects description in CSC's own public relation material (web site, customer magazines etc.). The customers have the possibility to update their projects information through "Scientist's Interface" extranet service (<http://www.csc.fi/>).

VALIDITY: *The user account is valid for the maximum period of two years at the time, starting from the day of admission.* CSC will notify the user well before the expiration date of the user account. User information will be updated in connection with the renewal of the license. If not agreed otherwise, unused accounts and the corresponding files will be removed after two years for the last use. The user account will expire immediately when a task or a study has been completed or the user has left the university or polytechnic.

INFORMATION ABOUT CSC'S SERVICES AND FILLING OUT THE FORM: If you have any problems, please contact CSC ServiceDesk either by email to helpdesk@csc.fi or by phone. The on-line service by phone (09) 457 2821 is open on weekdays between 8.30 and 16.00. At other times you can leave a voicemail message either describing the problem or simply requesting CSC to contact you. Information about filling out the application form and user licenses is available by e-mail from usermgr@csc.fi or by phone tel. (09) 457 2075.

Information about CSC's services for researchers can be found:

<http://www.csc.fi/english/research>

RETURN ADDRESS OF THE APPLICATION FORM: CSC-IT Center for Science Ltd, User accounts, P.O. Box 405, FIN-02101 Espoo. The applicant will be notified by letter of the opening of the new user account.
