

MEEK Project Team chat meeting log 8.12.2008

09:08:50 <Erkki> Hi Troy, Hi Mike!
09/12/2008 09:08:58 * Mike quit (timeout)
09/12/2008 09:09:09 <Håvard> Good morning!
09/12/2008 09:09:22 <maria> Good day, gentlemen.
09/12/2008 09:09:32 * Mike quit (timeout)
09/12/2008 09:09:33 <Erkki> Have you had the time to look at the appendix? Do you find it useful?
09/12/2008 09:09:55 <Erkki> Good morning Maria and Håvard.
09/12/2008 09:09:58 * Mike quit (timeout)
09/12/2008 09:10:38 <Mike P> I am afraid I have lost track of the documents and now have no clear idea what are our current active documents - are the relevant documents on the MEEK document list?
09/12/2008 09:10:52 * SFS Hillevi Vuo quit (timeout)
09/12/2008 09:11:09 <Erkki> Incidentally, in spite of having tried several times, I've been unable to get hold of Evangelos Melagrakis, who is currently the director of standardization at ELOT (Greece).
09/12/2008 09:12:21 <Troy> The latest version I have is from 12-03-2008
09/12/2008 09:12:46 <maria> I saw Troy's last mail with the summary description. It seems that it is in line with our expectations for Bulgarian.
09/12/2008 09:13:16 <Mike P> Troy: OK - I can find that - and what about your documents what is the complete current set
09/12/2008 09:13:19 <Troy> I haven't heard of him (Melagrakis) before. Is there something we should know about him?
09/12/2008 09:13:31 <Terø> I'll check the situation on the server.
09/12/2008 09:13:51 * Mike quit
09/12/2008 09:14:17 <Troy> Erkki, you were going to add some parts back to the document, when we talked yesterday.
09/12/2008 09:15:09 <Erkki> IAs I said, he's a director at ELOT and thus an authoritative source for the Greek considerations. I've known him for quite a few years (when he was earlier at ELOT).
09/12/2008 09:15:41 <Troy> OK. Yes, I see the relevance now. We haven't had anyone with authority on Greek.
09/12/2008 09:16:48 <Erkki> Troy, unfortunately I haven't had any opportunity to do so after we spoke yesterday.
09/12/2008 09:17:27 <Karl> Hello everybody! Regarding the CWA draft as of 2008-12-03, on p.6 it is said concerning ISO/IEC 9995-3: "which at present does not appear to provide an appropriate base for these extensions". ...
09/12/2008 09:17:36 <Karl> ... However, as ISO/IEC 9995-3 is currently under revision in the CD state, the outcome may provide such a base, albeit not optimal due to compatibility with earlier versions. However, if there is a need to incorporate a standardized solution, there probably will be one (depending of what will be decided at the SC35 meeting at Berlin Feb. 2009). I suggest that this will be mentioned in the CWA.
09/12/2008 09:18:27 <Erkki> The new part has been mentioned, and we are all hopeful on that.
09/12/2008 09:18:28 <Karl> A question: Will there be an opportunity to incorporate any outcomes of the Berlin meeting in the CWA, or has it to be fixed before Feb 2009?

09/12/2008 09:19:58 <Erkki> Karl: If we haven't started the public review, yes. Even after it, new considerations may be added as the result of the commenting period.

09/12/2008 09:20:39 * Karl quit (timeout)

09/12/2008 09:23:58 <Håvard> There isn't any "formal" reason why the CWA cannot be modified after the public review. The CWA is agreed by the members of the WS; listening to the rest of the world is "just nice".

09/12/2008 09:24:01 <Karl> (Problem with the chat software? It shows that I have quit, which is not true.)

09:24:27 * SFS Hillevi Vuo quit (timeout)

09/12/2008 09:26:15 * SFS Hillevi Vuo quit (timeout)

09/12/2008 09:29:24 * SFS Hillevi Vuo quit (timeout)

09/12/2008 09:30:32 <Erkki> We just discussed wit Troy that it is probably impossible for you to grasp what we had intended to do.

09/12/2008 09:31:00 <Erkki> Since there are too many documents, partially updating updates.

09/12/2008 09:32:12 <Erkki> Thus, if you have any advise on specific points, please do so, but let's agree on the availability of the next cosolidated draft and its review..

09/12/2008 09:32:57 <Erkki> I've understood that Friday would not be good for Mike.

09/12/2008 09:33:09 <Erkki> How about Monday?

09/12/2008 09:33:36 <Håvard> For me Monday would be ok

09/12/2008 09:34:14 <Erkki> I could send out a consolidated draft on Thursday morning.

09/12/2008 09:34:43 <Mike P> This time on Monday would be good for me

09/12/2008 09:34:54 <Erkki> Karl?

09/12/2008 09:35:18 <Karl> Monday will be OK for me.

09/12/2008 09:35:50 <Troy> Anytime Monday is OK for me.

09/12/2008 09:35:50 <Mike P> A consolidated draft would be excellent - as, with a mass of urgent deadlines to (nearly) meet last week I couldn't get round to reading all of the diverse set of documents

09/12/2008 09:36:03 <Erkki> Fine! Since Monday would also be fine for Troy, let's agree on Monday at the same time.

09/12/2008 09:36:13 <Håvard> ok

09/12/2008 09:36:16 <Karl> ok

09/12/2008 09:36:19 <maria> My Mondays are busy, but this is right now true of most days, so you needn't consider me. If we have a final version of the text, I'll send the "Bulgarian" comments by e-mail to Erkki.

09:36:57 <Erkki> I'd welcome any and all comments by Wednesday night.

09/12/2008 09:38:07 <Erkki> Maria, and of course yours after the draft has been sent out. By Wednesday meant for incorporation into the draft.

09/12/2008 09:38:46 <Mike P> I'll try to look at recent documents before then and comment - can Tero put them all on the server to avoid having to scan my e-mail archive

09/12/2008 09:39:26 * maria quit (timeout)

09/12/2008 09:40:27 * Mike P quit (timeout)

09/12/2008 09:40:31 <Tero> Which ones are missing?

09/12/2008 09:40:50 <Erkki> Troy's e-mails, for one.

09/12/2008 09:41:05 <Mike P> That's what I don't know - I guess the last contributions from Troy!
09/12/2008 09:41:25 <Tero> Ah, e-mails. That's why.
09/12/2008 09:41:31 <Erkki> Karl also already made some comment on them.
09/12/2008 09:42:31 <Håvard> Wouldn't the new draft include all input so far? So we could have just one consolidated document.
09/12/2008 09:43:17 <Karl> Erkki, I will consolidate my comments made by E-Mail and here, and will send it to you.
09/12/2008 09:43:25 <Erkki> Yes, the new draft will include them. You only need them if you want to comment on them for the new draft.
09/12/2008 09:43:36 <Mike P> Sorry to suggest more work for Tero - but I suspect that in the long run we will be grateful that all relevant documents are centralized on the server and not buried in everybody's inboxes
09/12/2008 09:44:06 <Troy> I agree with Mike.
09/12/2008 09:44:20 <Karl> I agree, too.

09/12/2008 09:44:22 <Håvard> Agree, of course!
09/12/2008 09:44:22 <Troy> Lot faster to find the relevant doc that way.
09/12/2008 09:44:52 <Erkki> I guess Tero has no choice, then.
09/12/2008 09:45:42 <Tero> Working on it...
09/12/2008 09:45:56 <Erkki> Fine!
09/12/2008 09:46:37 <Erkki> I'm looking forward to meeting you next Monday (with crisp comments)!

09/12/2008 09:46:48 <Håvard> ok, until Monday!
09/12/2008 09:47:05 <Erkki> Bye, everybody!
09/12/2008 09:47:11 <Håvard> bye for now
09/12/2008 09:47:16 <Karl> Bye
09/12/2008 09:47:17 <SFS Hillevi Vuo> Bye!
09/12/2008 09:47:23 <Mike P> I'll definitely have comments - but can't guarantee their crispness! Bye
09/12/2008 09:47:42 * Karl quit (timeout)
09/12/2008 09:47:42 * Håvard quit (timeout)
09/12/2008 09:47:44 <Troy> Bye
09/12/2008 09:47:46 * SFS Hillevi Vuo quit
09/12/2008 09:47:53 * Mike P quit
09/12/2008 09:48:02 * Troy quit
09/12/2008 09:48:22 * Erkki quit (timeout)
